

Portal & App Notes Enhancements

Overview:

Enhance the existing application with new features focusing on individual player homework, improved dashboard visibility, reporting tools, and expanded player profile functionalities.

Objectives:

- Improve player tracking and data accuracy
 - Enable individualized performance management
 - Provide comprehensive reporting and file management
-

Scope of Work:

- Allow assigning **homework to individual players** (not by group)
 - Redesign the **home page** to include **notifications, alerts**, and a **dashboard** for mobile application
 - Implement **Excel export** functionality for reports
 - Add **training session reports** where coaches log:
 - Player name
 - Session start and end times
 - Attendance/absence rates
 - Enhance **player profile pages** to include:
 - Current coach name
 - Attendance and absence stats
 - File upload feature (files can only be uploaded by Admin)
-

Deliverables:

- Updated UI mockups for the home page and player profile
 - Excel reporting module
 - Homework assignment module
 - Player session tracking and attendance analytics
 - Working features deployed on staging environment
 - Final deployment to production
-

Time Frame:

Estimated development time: 5 weeks

- **Week 1:** Session Module + Player Profile
 - **Week 2:** Homework module + home page redesign
 - **Week 3:** Reporting tools + Excel export
 - **Week 4:** Testing, bug fixes, and deployment
-

Estimated Cost:

- Development: \$
- QA & Testing: \$
- Total: \$
